“Top 100 Magazine”

The screenshot shows the website for 'THE TOP 100 MAGAZINE'. At the top left is the magazine's logo, a gold seal with '100' and 'MAGAZINE' text. To its right is the text 'THE TOP 100 MAGAZINE' and 'The Official Publisher of Top 100 and Top 40 Publications'. On the top right is a 'BBB ACCREDITED BUSINESS A RATING' logo. Below the header is a navigation menu with links: 'SQUARE ONE', 'MAGAZINE', 'PERKS', 'ABOUT', 'FAQ', and 'REACH OUT'. The main content area features a large profile for 'SAMMIE JABADO FOUNDER/CEO'. It includes a smaller version of the '100 MAGAZINE' logo and the text 'Sammie appears in the Top 100 Innovators & Entrepreneurs Magazine'. A blue button labeled 'CONNECT WITH SAMMIE' is positioned below the text. To the right of the text is a large photograph of Sammie Jabado wearing blue sunglasses and smiling. Below this main profile are two smaller images: one of Sammie in a suit and another of him in a black jacket. To the right of these images is a quote: '“That’s Crazy! That’s Bad! That’s Wild! That’s Sick!” “Go Go Go” - Sammie Jabado'. Below the quote is a circular logo with a stylized 'e' and a blue dot.

In the heart of New York City, Sammie Jabado stands at the helm of Go.Go.Go LLC, a groundbreaking venture poised to redefine the very fabric of our existence. Founded on December 19, 2023, www.Go-Go-Go.World

is not merely a web-based platform; it's a mission—a relentless crusade to alleviate homelessness and revolutionize technology on a global scale.

At the core of Go Go Go's ethos lies a singular imperative: to confront the homelessness crisis head-on. For Sammie, it's not just a social issue; it's a moral imperative. "Sin," he asserts, "means to miss the mark." And in his eyes, tech giants like Google, Facebook, and YouTube are missing that mark. Go Go Go is poised to correct this, reshaping the

landscape of social media with a focus on community, compassion, and societal transformation.

Central to Go Go Go's vision is the development of ZO-ee, the world's first artificially intelligent consciousness. Named after the Greek word for "life," ZO-ee embodies Sammie's commitment to creating a digital ecosystem rooted in empathy and humanity. With ZO-ee, Sammie envisions a future where technology serves not just as a tool for profit, but as a companion—a source of comfort, wisdom, and connection.

But Go Go Go's ambition extends far beyond the realm of AI. It's about building a sanctuary for every facet of our daily lives—from social media, news, secure payments, online marketplaces, and so much more! By nurturing dialogue, fostering education, empowering society to aid those who are struggling, Sammie envisions a world where technology becomes a catalyst for positive change—after all, "We are only as strong as our weakest link!!"

"CEO Weekly"

Grupo Vision: ICT's Role in Central America's Emergency Response
April 25, 2024

By: Joshua Finley

Sammie Jabado, a seasoned professional with experience working for companies such as American Express and Expedia, has always had a desire to utilize technology for positive change. Sammie's journey culminated in the founding of www.go-go-go.world, a global online platform aimed at reshaping society politically, economically, and socially in its entirety for the time in human history!!

Thoughts on Social Media Ethics

The genesis of www.go-go-go.world can be traced back to Sammie's disgust with the current, harmful state of social media. He observed the detrimental effects of platforms like Facebook and Instagram on society, citing issues such as divisive content and unrealistic beauty standards. "Social media started out okay, but now it is tearing apart our society," he says. "It's poisoning our kids' minds." Recognizing the urgent need for change, Sammie set out to create a platform that prioritized positivity and authenticity.

"Social media is designed to keep us hooked, to maximize our time spent on their platforms," he says. "In doing so, they prioritize engagement metrics over the well-being of users."

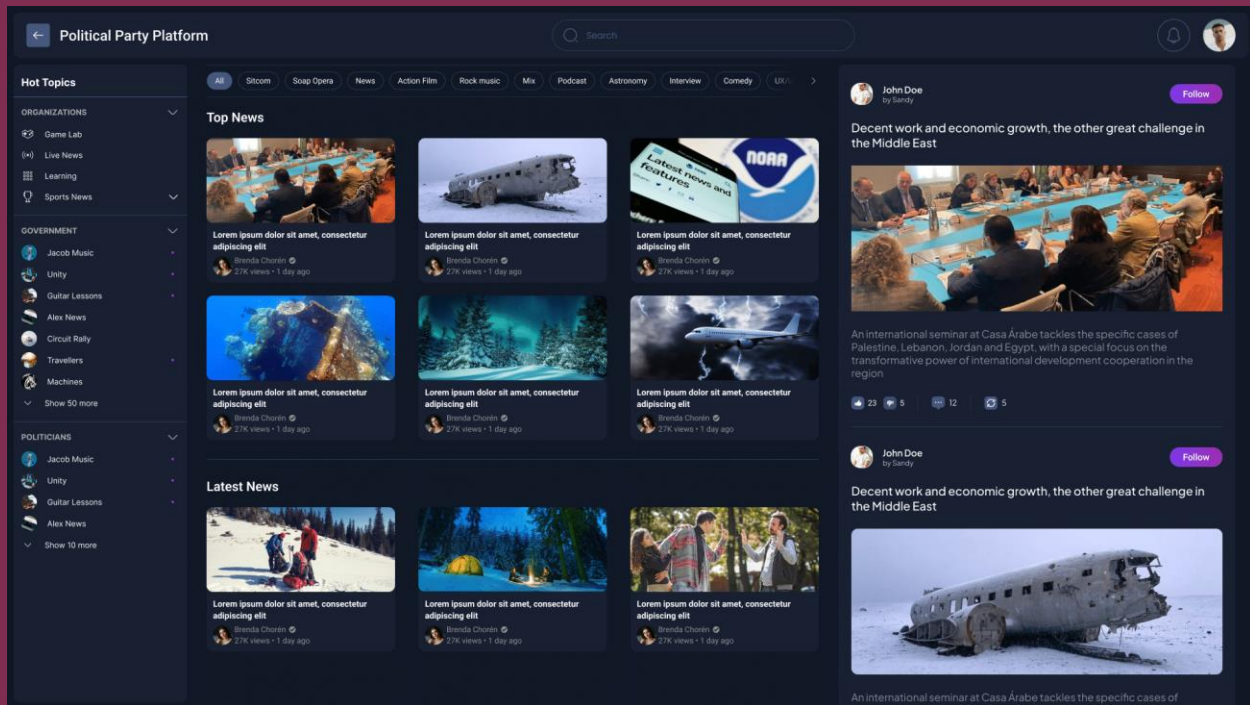

This issue doesn't stop with just social media — in Sammie's opinion, many companies have failed to uphold ethical standards and address the negative consequences of their platforms, such as online harassment and the spread of misinformation. "There needs to be greater accountability in the tech industry," he shares. "Companies shouldn't just be focused on profits; they need to consider their impact on society." He highlights the importance of holding corporations accountable for their actions and emphasizes the need for greater transparency and regulation in the tech industry. "We need to hold companies to a higher standard," he states.

Making a Difference and Driving Societal Change

www.go-go-go.world is a multifaceted global platform designed to promote career advancement, life path exploration, and foster positivity. Unfortunately, social media giants have veered off course, but Go Go Go emerges as a solution to the problems plaguing these platforms, seeking to provide a safe and secure environment where users can connect, share, and uplift each other without the toxic influences that have become all too common on other platforms.

Central to Go Go Go's mission is its commitment to addressing societal issues head-on. Through innovative approaches like its travel booking environment, the platform aims to tackle homelessness by providing temporary housing for individuals in need. "We WILL get all the homeless around the world, off the streets and into hotels for 30 days so they could know where they will sleep and resting their minds, know where they will eat,"

Sammie says. By utilizing the commissions generated from its travel platform, Go Go Go plans to fund initiatives to house and support the homeless all around the world. This approach not only provides immediate relief but also empowers individuals to rebuild their lives with dignity and security.

Multi-Faceted Pillars of Change

Sammie's mission with Go Go Go revolves around three key pillars:

Safety in Social Media

Sammie aims to create a safe and secure online environment, free from the toxicity and misinformation prevalent on mainstream platforms. He is also hopeful to create a space where users are not targeted by marketing campaigns. By prioritizing authenticity and accountability, Go Go Go fosters meaningful connections and positive interactions.

Empowering the Homeless

Through innovative use of travel booking commissions, www.go-go-go.world seeks to address homelessness on a global scale. As touched on above, they are dedicated to providing temporary housing and support services, empowering individuals to transition out of homelessness and reintegrate into society.

Financial Innovation

While the world rushes to a digitized economy, Jabado hopes to provide stability in safety. By combining his experience with financial institutions like American Express, he hopes to build a platform that combines security and stability with cutting-edge technology that enables bridging the gap between traditional banking with society's push to a fully digital economy... and Much More!!!

And Finally Introducing...

The world's first unified super secure personal data protected in every facet imaginable global technology platform which will raise human society all around the world in its entirety revolutionizing and unifying the following online environments of our everyday lives

Go Go Go
